

2020 GASB 77 Reporting

This form is issued for use in calculating values to be footnoted on financial statements for local units of government and school districts to comply with the requirements of GASB 77. This form is not required by law to be compiled by the Equalization Department and as such is created as a courtesy. The Equalization Department takes every effort to ensure that the values listed below are accurate but the end user of this report utilizes it at his or her own liability. All numbers should be verified with your local assessor(s) for accuracy.

Important Note: This is not an IC report. Any Inter-County school district will need to get additional information from the other County(s) or Assessor(s) that your school district covers.

2020 GASB 77 Reporting

This form is issued for use in calculating values to be footnoted on financial statements for local units of government and school districts to comply with the requirements of GASB 77. This form is not required by law to be compiled by the Equalization Department and as such is created as a courtesy. The Equalization Department takes every effort to ensure that the values listed below are accurate but the end user of this report utilizes it at his or her own liability. All numbers should be verified with your local assessor(s) for accuracy.

Important Note: This is not an IC report. Any Inter-County school district will need to get additional information from the other County(s) or Assessor(s) that your school district covers.
